Years 3 & 5

Please note:

When installing Apps on your child's iPad we recommend that parents check the Apps first and only install Apps that they are comfortable with their child having on their iPad. Some of the Apps listed above have suggested ratings that may be higher than the age of your child (QR Reader 9+). Within our school filtered network and with the supervision of teachers we are comfortable that all of these Apps are suitable for use in the classroom. However, please be mindful that with unfiltered home networks these Apps may not be suitable for your child. Please use your own discretion and speak to your child's teacher if you have any questions.
